

MARK EMMANUEL OUMA

Phone: +254745492808

Email: emmanuelmark9793@gmail.com

PROFESSIONAL SUMMARY

First Class Honours Computer Science graduate with a strong focus on data analysis, networking and cloud infrastructure. Skilled in using Python (Pandas, NumPy, Matplotlib) to analyze data, generate insights, and support decision-making. Experienced in IT support and network administration at Kenya Pipeline Company, with hands-on expertise in troubleshooting, system optimization and secure network environments. Passionate about leveraging data-driven solutions alongside modern networking technologies.

TECHNICAL SKILLS

Data Analysis

- Python (Pandas, NumPy, Matplotlib)
- Data Cleaning, Transformation & Visualization
- Exploratory Data Analysis (EDA)
- Working with CSV, Excel & Databases
- Basic Machine Learning Concepts

Networking & Infrastructure

- TCP/IP, DNS, DHCP, VPN, Firewall Configuration
- LAN/WAN Setup, Troubleshooting & Optimization
- Network Monitoring & Performance Tuning
- Virtualization (VirtualBox, VMware – Fundamentals)
- SDN & NFV (Conceptual Knowledge)
- Cloud Computing (AWS & Azure Basics)

Programming & Development

- Python (Automation & Scripting)
- JavaScript, HTML, CSS

- SQL & Database Management
 - REST APIs
 - Git Version Control
-

EDUCATION

Bachelor of Science in Computer Science (First Class Honours)

Laikipia University | 2021 – 2025

KCSE (B+)

Ringa Boys High School | 2017 – 2020

PROFESSIONAL EXPERIENCE

IT Support

Kenya Pipeline Company

- Diagnosed and resolved hardware, software, and network issues
- Installed and configured operating systems and enterprise applications
- Managed LAN/WAN connectivity and troubleshooting
- Assisted in VPN setup and firewall configurations
- Managed user accounts and access control systems
- Performed system updates, antivirus management, and patching
- Maintained support logs and ensured IT compliance standards
- Supported office IT equipment (printers, scanners, conferencing tools)

Freelance IT & Data Projects

- Performed data analysis using Python (Pandas, NumPy, Matplotlib)
 - Cleaned and transformed datasets for analysis and reporting
 - Automated tasks using Python scripting
 - Developed web applications and provided technical solutions
 - Delivered insights from data to support decision-making
-
